

BROOKFIELD INSIDER

APRIL 2024

E-Newsletter for the Month of April 2024

EDITORIAL BOARD

Dear Parents,

"Welcome to the new session at Brookfield International School! As we embark on this exciting journey together, filled with laughter, learning, and cherished memories, we're reminded of the words of **John Muir**, who said, **"The clearest way into the Universe is through a forest wilderness."** Just as each tree in a forest contributes to its beauty and vitality, so too will every activity, celebration, and learning moment in our BFIS community contribute to the growth and enrichment of our young learners.

This month's newsletter promises to be a delightful journey through the vibrant tapestry of our school's life, brimming with heartwarming stories, captivating adventures, and inspiring moments of growth and discovery. As we welcome the new session with open arms, let's nurture curiosity, foster creativity, and cultivate a love for learning in the hearts of our children."

GROW WITH THE FLOW

- Open House

- Train Ride

- Red Day

- Celebrating our lives

- Baisakhi Celebrations

- Hand Hygiene drill &

Toilet Etiquette

- Earth Day

OPEN HOUSE

Kindergarten is a magical place where dreams begin to grow.

Open house meetings are vital as they allow children and teachers to get acquainted with each other. As kids feel most safe when they are with their parents, an open house meeting helps the children release the tension and make them feel familiar with the surroundings. **Pre-Nursery and Nursery** children along with their parents attended the open house session on **01st April 2024** in the school where they participated in many activities, did fun exercises and sang nursery rhymes with their teachers. Parents were walked through the working of a day's schedule.

TRAIN RIDE

Down by the station
Early in the morning
See the little puffer bellies
All in a row
See the station master
Turn the little handle
Puff,Puff,toot, toot
Off we go !

Our little ones delighted in a charming toy train ride at school alongside their classmates and caring teacher on **5th April**. Laughter and excitement filled the air ,creating a vibrant atmosphere of joy. For our newest students, this experience marks a significant step in acclimating to their new surroundings and fostering a sense of belonging among peers.

RED DAY CELEBRATION

The **kindergarten** glowed in vibrant shades of crimson on **26th April**, as our little ones arrived dressed in an array of stunning red hues, igniting the atmosphere with excitement. Guided by our dedicated educators, they immersed themselves in a spectrum of engaging activities. As the day unfolded, laughter filled the air as the children savored a delightful feast of succulent strawberries, juicy watermelon slices, plump cherries, and decadent red velvet cakes and muffins, all lovingly packed in their colorful tiffins. The classroom transformed into a joyful haven where every moment was painted in the rich tapestry of childhood wonder and delight.

CELEBRATING OUR LIVES

We emphasize in educating our little ones about all belief systems existing in the world. This education results in more well-rounded kids who accept different religious beliefs, respect them and know the difference between major world religions. Religion and culture have strong connections. Faith often leads to practices like observing certain holidays or wearing particular clothes. Children who understand these differences develop empathy and compassion for others, even those with different religious beliefs and cultural practices. On **10th April** kids were shown videos on **Eid celebrations and educators talked about the month long fasting and then celebrating Eid ul Fitr**. Incorporating all religious ideas into our holiday celebrations teaches kids about culture, like food, and introduces them to the religious ideals behind various holidays.

BAISAKHI CELEBRATIONS

The **kindergarten kids**, adorned in vibrant traditional attire, brought the essence of **Baisakhi** to life as they danced joyfully to the rhythmic beats of the Dhol beats by one of our student, **Ranvir Singh from VII Gamma**. Throughout the school corridors, the spirit of the harvest festival radiated, amplified by educators who intricately detailed the journey of wheat from field to bread, captivating the young minds with an elaborate display of wheat-based creations. Engaged in a plethora of art and craft activities, the children immersed themselves in the cultural richness of the festival. And as lunchtime approached, the sumptuous Punjabi meal, lovingly packed by moms, became a feast for both the stomach and the soul, adding an extra layer of warmth and togetherness to the festivities.

HAND HYGIENE DRILL & TOILET ETIQUETTE

At BFIS, we believe that instilling proper toilet etiquette and hygiene habits in children from a young age is crucial. Beyond just teaching manners, it's about imparting essential life skills. In our program, we educate our tiny tots on everything from how to use the toilet appropriately to the importance of flushing, proper wiping techniques, and what items should or shouldn't be disposed of in the toilet bowl. But it doesn't stop there. We understand the significance of hand hygiene in preventing the spread of diseases. That's why we incorporate thorough hand washing practices into our curriculum. Recently, we conducted a hygiene drill with our students, emphasizing the correct way to wash hands to eliminate harmful germs. By integrating these lessons seamlessly into their daily routines, we're not just shaping their behavior; we're empowering them with the knowledge to lead healthier lives.

EARTH DAY

The **kindergarten students on 22nd April** embarked on a series of engaging activities aimed at raising awareness about environmental conservation and the importance of protecting our planet. With creativity and enthusiasm, these young eco-warriors demonstrated their commitment to making a positive impact on the world around them. The day began with a lively discussion led by the teachers, where the children learned about the significance of **Earth Day** and the various ways they can contribute to preserving the environment. Armed with newfound knowledge and excitement, the kids eagerly participated in a range of hands-on activities throughout the day. One of the highlights of the event was a colorful art session, where the children unleashed their creativity to craft beautiful artworks depicting nature and the importance of environmental conservation. Furthermore, the kindergarten kids took part in a special rally around the school premises, where they enthusiastically recited the slogans for keeping our environment clean and pollution-free. With smiles on their faces and a sense of accomplishment in their hearts, the kindergarten kids pledged to continue their efforts to protect the planet and make every day Earth Day. Through their creativity, enthusiasm, and commitment, these young eco-warriors have shown that age is no barrier to making a positive impact on the world around us.

CRAFTY BUBBLES

**“CRAFTING IS THE ART OF
TURNING ORDINARY OBJECTS
INTO EXTRAORDINARY THINGS.”**

TASK OF THE MONTH

Empowering Eco-Consciousness Through Kids' Chores

In April, our institution initiated a unique mission aimed at involving our young learners in household chores, specifically focusing on washing vehicles. This endeavor was not just about completing a task; it was a holistic approach to instill values of responsibility, teamwork, and environmental consciousness in our children.

The participation of our little ones in washing vehicles was met with remarkable enthusiasm and energy. From the very onset, they displayed eagerness to contribute to household tasks, showcasing their readiness to take on responsibilities beyond their usual routines. This engagement in chores not only fosters a sense of accountability but also strengthens family bonds as children and parents work together towards a common goal.

Through their actions, our young learners are becoming empowered individuals, ready to make a positive impact on the world around them. Here's to nurturing responsible and eco-conscious individuals, one chore at a time!

CLASS OF THE MONTH

In the bustling halls of education, there exists a beacon of brilliance, a hub of budding intellect, and a sanctuary of learning. Among the myriad of classrooms, one shines exceptionally bright - Class- UKG, Awesome Alpha With gleaming enthusiasm, unwavering dedication, and a thirst for knowledge, this class has emerged as the epitome of excellence in our institution for the month of April'24.
