APRIL 2025

E-Newsletter for the Month of April 2025

## WELCOME TO THE NEW SESSION

"April opens the gates to new beginnings, where every sunrise on the school grounds writes the first lines of a story yet to unfold. Let us step into this new academic year with hope in our hearts, curiosity in our minds, and the courage to grow together."

# EDITORIAL BOARD

**"The beginning is the most important part of the work."— Plato**

Dear Students and Parents,

As the golden hues of April dawn upon us, **Brookfield International School** stands at the threshold of yet another promising academic session. With fresh notebooks, renewed aspirations, and vibrant energy filling the corridors, we warmly welcome both our returning students and the new faces who now become part of our ever-growing Brookfield family.

The beginning of a new session is more than just the start of classes—it is the spark of new ideas, goals, friendships, and dreams. It is a time when we reflect on the lessons of the past year and stride forward with clarity and confidence. At Brookfield, we believe that every student holds immense potential, and it is our mission to nurture that spark through academic excellence, creative exploration, and values that shape responsible global citizens.

This month has been marked by orientation programs, interactive sessions, and the laying of strong academic foundations. Teachers and staff have been working tirelessly to ensure a smooth and enriching start for all students. We encourage parents to stay engaged, as your involvement and support play a vital role in each child's success.

Let us embrace this new chapter with curiosity, resilience, and a commitment to growth. Together, let us make 2025 a year of discovery, innovation, and meaningful progress!

Warm regards,

**Ms. PARAMJOT & Ms. PRIYANKA KAUSHAL**

# PARENTS ORIENTATION

**Coming together is a beginning. Keeping together is progress. Working together is a success.**

On **2nd April** we organized an **Orientation for our new admission families** to make them familiar with the school's policies .From tackling separation anxiety in little ones to participating in all activities of the school ,the parents were sensitized about the various important issues . A preschool orientation sets the scene for a successful school year. It's an opportunity for families to learn more about their child's school, meet teachers, and understand the school's philosophy and curriculum. For educators, it's a chance to lay the foundation for a positive relationship with families and ensure that everyone is on the same page when it comes to expectations and goals for the school year.

# OPEN HOUSE

**Kindergarten is a place where little hands learn to paint their world with bright and beautiful colours.**

The beginning of the session is an opportunity to lay the groundwork for a positive and productive learning experience. Open house helps ease the transition for children moving to new environment. On **3rd and 4th April** our **Pre-Nursery and Nursery** children attended the Open house activities along with their parents.

Open house allows children to explore their new classroom, meet their new teachers, and become acquainted with their new surroundings before fully settling in. This gradual introduction helps reduce anxiety and builds confidence. While doing various activities with their educators, children learn about daily schedules, activities, and routines at their own pace. This familiarity helps them adjust more quickly and feel more secure.

Open house is not just for the children; it's also an opportunity for parents to engage with the new environment. Parents can ask questions, discuss their child's needs with the teachers, and gain insights into how they can support their child's transition.

# FIRST DAY OF SCHOOL

Pencils, glue, paper, and books,  
My backpack is filled to the top !  
I grab my lunch and gym shoes,  
And make my way to the bus stop.  
I get to school and walk in,  
Walls are decorated, it's cool  
I find my desk with my name,  
I am ready for back to school !

On **7th April** our **kindergarten kids** jovially entered the school gates with new bags, books and bottles to start the new session. The toddlers too toddled towards their classes ,some a little anxious and some cheerful to start their new journey.

# BAISAKHI CELEBRATIONS

As it was that time of the year when the **Golden fields** are ready for the harvesting ,we organized **Baisakhi celebrations** at our **kindergarten** on **11th April**. Our little ones came dressed up in the ethnic attire as beautiful **‘Motiars’** wearing salwar suits, **paranda, tikka and dupattas** and handsome **‘Gabras’** wearing kurta **pyjamas and chaddras with kaintha and pagdi**. The little ones danced on the dhol beats and created an atmosphere of merriment around the campus. At **BFIS** , it is our constant endeavor to teach our little ones to cherish and be proud of our traditions and culture. Educators took the little ones around the exhibition specially put up for them to show case the journey of wheat from fields to the plate. Various wheat products were also shown to the kids. Later they did some craft work related to the celebrations and enjoyed the traditional food packed lovingly by their moms for the occasion. It is necessary to teach children about the hard work, that farmers put in to ensure that there is plenty of food for all.

# MAGIC SHOW

**If we all could see the world through the eyes of a child, we would see the magic in everything.**

On 16th April, our kindergarten kids were taken on a magical trip of wonders by the famous magician master Karan. With wide eyes and joyful giggles, the children watched in awe as the magician brought a world of wonders to life. From disappearing objects to surprising tricks, every moment was filled with excitement and delight. It was a magical experience that sparked their imagination and left lasting smiles on their faces.

# EARTH DAY

**The greatest threat to our planet is the belief that someone else will save it.**

To mark the **Earth Day, on 22nd April** our **little Eco warriors from UKG** stepped out with joy and purpose! The day began with a vibrant rally around the school campus, where children carried placards and chanted powerful slogans reminding us all to love and protect our planet. Little stars from **Pre-Nursery to LKG** went out for a refreshing nature walk, where they explored the greenery around them. Back in the classroom, creativity bloomed as they engaged in Earth day-themed craft activities. It was a beautiful day of learning and loving our planet -one step at a time.

# WORLD BOOK DAY

**Books are the quietest and most constant of friends; they are the most accessible and wisest of counselors, and the most patient of teachers.**

On **23rd April** , our **kindergarten kids** celebrated the **World Book Day** with a special visit to **the school library**. They were introduced to the basic rules of the library and were shown the kinds of books displayed rows after rows on various shelves. Educators also explained the difference between the various types of books like a dictionary, encyclopedias ,magazine, a comic book, novels and story books.

The little ones also participated in a bookmark making activity ,that not only enhanced their creativity but also made them aware about the importance of using bookmarks in books to keep a track of the page. The day ended with the story telling by the educators ,reading out the story and showing the pictures in the book to the kids.

# RED COLOUR DAY

**Colours are the smiles of nature.**

Colour identification starts in early years and in our kindergarten every month we celebrate one specific colour for our little ones to get familiar with the different shades of that colour. On **25th April** our munchkins came all adorably dressed up in red coloured attire lighting up the classrooms with their cheerful smiles. The tiffin boxes too matched the theme-filled with delicious red coloured treats like strawberries, watermelon, cherry tomatoes and beetroot delights. Hands on activities like thread painting, bud painting and tearing pasting kept our young artists joyfully engaged as they explored the colour red through fun , sensory experiences. Learning about colours helps kids sort, organise, categorise, and compare objects. It also helps children to create a cognitive link between visual clues and words. Learning to identify and describe colours improve the children's ability to communicate and express themselves.

# STORY ENACTING

With growing concern of excessive use of the screens, especially smartphones by the children across the world it is our duty to educate our little ones and young parents about the harmful effects of the excessive screen time through various activities. One such activity that we organized for our kindergarten kids was a story enacting by the educators on **28th April**. Story narration and enacting are the best source of conveying important messages to the kids. Our educators through story enacting educated kids about the harmful effects of screen on eyes and brain. At BFIS, we believe in nurturing healthy habits from a young age. By making learning interactive and relatable, we aim to empower our young ones to make better choices every day.

# SIGHTSEEING SPOT OF THE MONTH

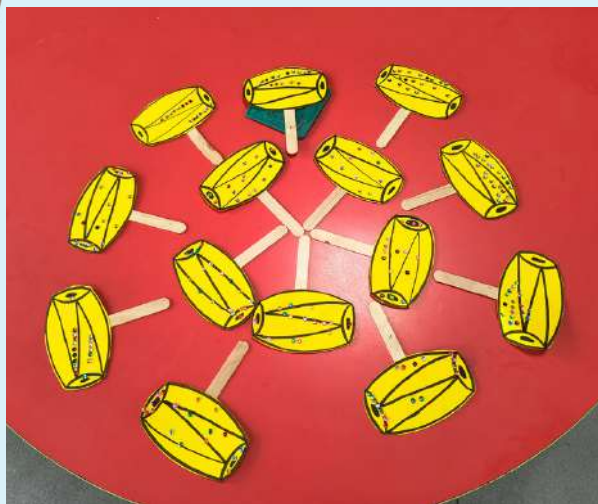

At BFIS , we firmly believe that a child's education extends far beyond the four walls of a classroom. It is our constant endeavour to engage parents in meaningful activities that are not only enjoyable but also enriching for their little ones. When learning is blended with real -life experiences, it leaves a lasting impact on young minds.

This year, as part of our monthly curriculum plan , we have introduced a special feature- a Sightseeing Spot of the month from around the Tricity area. Every month, we select a place of historical, cultural or environmental significance and offer our students a virtual tour at school. These guided virtual experiences are thoughtfully curated to spark curiosity, build awareness, and inspire children to explore the world around them. To extend this learning beyond school, we warmly encourage parents to visit these spots with their children whenever time permits. These family outings not only reinforce what the children have learned virtually, but also create treasured memories and opportunities for meaningful conversations. This month's spot was the Natural history museum, sector 10 Chandigarh and some of our children enjoyed the visit with their parents.
